d-COLOR
P2121/P2126

The **d-Color P2121 and d-Color P2126** colour laser printers are reliable, compact and guarantee very high quality prints through the use of long-lasting quality components. Both printers were designed with environmental sustainability in mind regarding both TEC (Typical Electricity Consumption) and noise levels. These considerations have led to a significant decrease in power consumption and in CO_2 emissions, designed to meet Blue Angel (RAL-UZ171 and Energy Star 2.0 requirements.

The possibility of printing directly from a USB memory stick and mobile devices gives users the freedom to print quickly and immediately, even on the move.

The **d-Color P2121 and d-Color P2126** printers are ideal for all types of working environments with small to large groups of users. They are versatile, manageable and easy to use.
